Celebration of Public Service

As the importance of public services is highlighted due to lean economic times and this critical gubernatorial election year, this month's Early Mornings with Elizabeth will focus on public service as exemplified by city employees.

Come learn about **COOL CITY JOBS** held by your Ward 8 neighbors and hear why they believe public service is important.

We have a great line-up of dedicated city employees for you to meet, featuring **Julie Meintsma** of the Clerk's office, **Marie Asgian** of the Water Department, **Dan Huff** with Environmental Services/Regulatory Services, **Dana Beasley** of the Assessor's office, **Tim Baynard** of the Fire Department, and more!

Join us at our **special September location, South City Café, 3405 Chicago**, and **help support this great new business** that is part of revitalization along Chicago Avenue.
